

Center for Diagnostic Imaging (CDI)
1416 S. Randall Road
Geneva, IL 60134

4 Cedar Ridge Drive
Lake in the Hills, IL 60156

CDI is open at both locations. The Geneva location provides MRI, CT, US, Mammography, & X-Ray studies. The Lake In The Hills center can provide MRI & CT studies.

Given the demands on hospitals, the centers provide valuable services and are open to provide outpatient access to high quality imaging services. As the healthcare needs of the community continue to evolve, hours may be adjusted accordingly. Currently hours at both centers have staff available [from 8 AM to 4:30](#) PM-M-F to assist patients.

Effective [May 4, 2020](#) screening mammography, DEXA scans, & CT lung screens will resume. CDI continues to do all pre authorizations.

If you have any difficulty with an imaging need or any issues after hours, please reach out to our Account Executives.
